Our Pur Meunier represents the roots of Caille Lemaire.

A tribute to the first generation: Raymond Caille and André Lemaire.

The meunier grape variety was the only one used by our grandparents in the Marne Valley, and their vines were grown exclusively in Damery.

For its production, we used recent 300-l barrels made from Damery wood.

Pur Meunier is creamy and slightly tannic. The wine is well supported by acidity and a saline finish.
